

## Instructions for Installing and setting up Flip4Mac

1. Go to: [http://www.flip4mac.com/wmv\\_download.htm](http://www.flip4mac.com/wmv_download.htm)
2. Click the **download now** button and a .dmg file will download
3. Double click the .dmg file and then the .mpkg file and follow the instructions

After Flip4Mac installs correctly, follow these next steps:

4. Open Your **System Preferences**
5. Locate and click on the **Flip4Mac WMV icon** under the “other” section near the bottom of the dialog box
6. Under the **Browser tab** be sure the following are checked:  
\* if you want to view video in your browser - check the 1<sup>st</sup> checkbox,  
if you want video to play within the QuickTime player - check the **Launch QuickTime Player** checkbox)

7. Under the **Player tab** be sure all of the following checkboxes are checked:

8. You may need to **Quit** and **reopen QuickTime** for the changes to take effect.

You should be set to go. If you have any problems downloading and installing, please contact your system administrator.

If you have questions about this process and can't view video files on your MAC, please contact [ecbwebmaster@ecb.org](mailto:ecbwebmaster@ecb.org).
